

### **7b. PROJECT Client Proposal milestone: Draft by Renee Apelo**

Hello, my name is Renee Apelo. I am the founder of the RFART419 official animation brand. My brand is primarily influenced by Japanese culture, anime and manga, and my family trips to Japan. I choose to become a professional artist later as I learn to become independent.

My client is Eric Cam. He is also on the autism spectrum, like me. We have had similar interests in art, such as drawing, since childhood. I admire that he also creates equally adorable original characters like me.
